Thank you so much for completing this Animal Adoption Application!

This information helps us to determine which animal would best suit your wishes and needs of a new pet while meeting what the animal needs to thrive in a new forever home.

Please note that submitting an application does not guarantee an approved adoption for the specified animal. We prioritize the animal's needs above all else to ensure they thrive and that the match is a success.

Pending approval, we will keep your application on file for one year from the submission date. During that time, if a compatible animal becomes available for adoption, we will reach out to see if you would be interested. If at any time you would like us to remove you from the Approved Adopters Waitlist, please let us know via email or phone call. Similarly, if you adopt an animal from another facility within that one year, please let us know so we can update our records.

Animal Adoption Applications are processed in the order in which they are received. You will get a confirmation of submission within 24 hours. This will be followed later by an email message with the next steps within 7 days.

If you have any questions, please don't hesitate to contact us.

Thank you again for considering adoption and taking this step towards making a life-changing impact on an animal's life!
